---

**Corpus size:** \_\_\_\_\_hours\_\_\_\_\_speakers

**A brief Description:**

This corpus was designed for standard database for face recognition, emotional face recognition, and synthesis. The corpus contains 1000 face expression video records (500 emotional face expression, 500 emotional speech expression) from 70 people. The database is consist of the eight emotional face expressions and 23 emotional speech expressions. The eight emotions are: neutral, laugh, smile, fright, disgust, sad, angry and blink.

This corpus also contains the feature sets (79 points) of neutral faces. The samples of the database are as follows:

[Example Video 1](#), [Example video 2](#), [Example video 3](#)
